

Mr. Amit Malhotra

Founder & Leader – McCoy Group

Amit Malhotra is a distinguished entrepreneur and business leader whose professional journey reflects a blend of visionary leadership, innovation, and strategic growth. Raised in a family deeply rooted in entrepreneurship and national service, he inherited values of resilience and enterprise from his grandfather, a freedom fighter, and his father, V.K. Malhotra, a pioneer in silicone trading and waterproofing solutions. His formative years at Delhi Public School, R.K. Puram nurtured his leadership capabilities, which were evident through his active participation in student initiatives and the establishment of the SAINTS Council.

After earning an Honours degree in Economics from Hans Raj College in 1995, Amit assumed responsibility for the family business and successfully transformed it into a major industry player, executing landmark projects for leading developers. In 1999, he founded McCoy Group, which evolved from a silicone solutions enterprise into a diversified manufacturing and technology-driven organization with a global presence. Strategic collaborations, including a joint venture with Soudal Group, strengthened its market position and manufacturing capabilities.

A strong advocate of the “Make in India” initiative, Amit has championed advanced manufacturing through the establishment of state-of-the-art production facilities, significantly contributing to domestic industrial development. His leadership philosophy emphasizes innovation, operational excellence, sustainability, and long-term value creation. To further enhance his strategic acumen, he completed the Owner/President Management (OPM) Program at Harvard Business School between 2015 and 2018. Beyond business, he has contributed to industry advancement by spearheading the development of Windows & Façade, a platform dedicated to knowledge sharing, collaboration, and innovation within the building and construction sector.
